-defects in the scheme announced by Government order dated 17th of June 1987 Even today', we have heard contradictory statement from the side of the Minister. One was that on the 7th of September, a comhTunicatton was addressed fo all' the State'Governments arid' they were free to implement the scheme according to the agreement, arrived at. The agreement was contained in-. a demi-otecial letter written by the Secretary of the Human Resource Development Ministry and another by the Chairman of the U. G. C.,, Dr. Yash Pal. But the Minister now says that the formal . order is in the offing. No step has been taken' to amend the Government order *at 17th* June on the basis of the agreement arrived at on the 4th of September. Should we understand that a dMy issued Government order can be modified On the basis Of a dgmi official letter? If a formal order from the deds-Ion of the Ckbinet is rerfdy, whv such a lory? time has been taken by the Human Resource Development Ministry?

Flying of'defective planes by Vayudoot and LA.

44. SHRI BER BHADRA PRATAP ;, SINGH:

SHRI: BHAGATRAM MANHAR:

Will the Minister of CIVIL AVIATION be pleased to state:

(a) whether it-is a, -fact that Vayu doot and Indian- Airlines are •flying defective planes ignoring the safety of the-passengers;

, (b) whether it is also a fact that recently the "Airbus had developed tracks in their wings;

† The Questions was actually asked on the floor of house by"Shri Bir hadra Pratap singh.

(c) if so, what steps have been taken to repair the defective aircrafts; and

(d) whether Government propose to check all the aircrafts under Indian Airlines and Vayudoot and if not, what are the reasons therefor?

THE MINISTER OF HEALTH AND F. fcMILY WELFARE AND THE MINISTER OF CIVIL AVIATION (SHRI MOTI LAL VORA): (a) No, Sir. The aircraft of Vayudoot and Indian Airlines are maintained by licensed/ approved engineers and in accordance with airworthiness standards specified by the Director General of Civil A. viation and recommended by manufacturers, and are flown only. after the prescribed maintenance checks hive been carried out.

(b) and (c) Yes, Sir. During routine inspections of the aircraft by Indian Airlines' Engineers they discovered cracks on the wing top skin of two Airbus A300 aircraft.

The matter was immediately brought to the notice of Director General of Civil. Aviation and the manufacturers and visual inspection of all the A 300 aircraft was carried put to ensure that there were no cracks in other A300 aircraft in Indian Airlines fleet. Repair work on one of the two aircraft has already been carried out under the supervision of Airbus Industries personnel and. repair on the second aircraft is in progress. The aircraft after repairs will be flown only after those have been certified as airworthy.

(d) All aircraft of Indian Airlines and Vayudoot are subjected to statutory and periodic checks/inspections by engineers duly supervised by the Director General of Civil Aviation.

SHRI BIR BHADRA PRATAP SIMGH; Considerable controversy has been raised by the management itself that the engine is defective. The engine.. suppliers said that'the maintenance is bad. After checking they said there is no proper servicing. Now the honourable Minister, Shri Vora,, said, no, we wont use it and we hold an Inquiry. Now, this is not being serious.. Why. has this technical controversy been made public by the departmental people themselves, by the officers of the Government itself? Why these statements and counter-statements by Vayudoot on one side and manufacturers of Dornier on the other side? You take it away from criculation so that it may not be run for public use.

SHRI MOTI LAL VORA: I have already said about the report pf the DirectorHGeneral of Civil Aviation about the performance of the engine during ground-run; the engine is considerably serviceable and airworthy to complete the rest of the life of the engine, i. e. 390 hours. The officers of the DGCA will closely ensure the performance of the engine and if any deterioration in the performance is observed, the engine shall be withdrawn from the aircraft service. *(Interruptions)*

SHRI BIR BHADRA PRATAP SINGH: But why are people made to live in suspicion about flying on thi$_s$ aircraft? If there is any. defect, why not deal with the engine and the engine suppliers. Why allow a public.. controversy being raised by the offi- cials concerned?

SHRI MOTI LAL VORA: I do not know about the public controversy. I have narrated the facts.
